

# Full Stack Developer (Python/JavaScript) – Tech Start-up

Start date: ASAP

Job type: 12 months contract

Location: Remote

## About us:

PPTX Builder is an investor backed start-up specialising in data visualization and report automation. Our technology enables users to extract key insights in client ready presentations.

## The role:

We are looking for a Full Stack Developer (Python/JavaScript) to work closely with the Founder to deliver an outstanding reporting platform. You will be fully involved in the product road map creation and product delivery. Your work will range from simple frontend bug repairs to building and integrating complex APIs.

## Requirements:

- Excellent knowledge and 3+ years of commercial experience working at a master level using Python 3, Flask and JavaScript
- Modern JavaScript development tools and libraries
- Experience with a common Python and JavaScript libraries (Highcharts, Pandas)
- Experience with Bootstrap
- Experience or high level understanding of code testing methodologies.

## Tech we use:

- Server-side: Flask
- Client-side: Bootstrap, JQuery, HTML, CSS,
- Languages: Python 3, JavaScript
- Data visualization & analysis: Highcharts, Pandas, Openpyxl, Xlrd
- Database: PostgreSQL
- Deployment: Heroku

## Qualities we look for:

- Positivity, determination to succeed, high energy with humility and a strong personal drive
- Sound judgment along with a desire to challenge traditional thinking
- Highly organised with a flexible approach to working
- A very strong work ethic and a focus on delivery
- Appreciation for a test-driven, code-review culture

## What we offer:

- A competitive salary
- % commission on any deal closed
- 25 days holiday
- Remote working
- The opportunity to contribute to and shape our vision, culture & growth

We look forward to hearing from you. Email CVs with a cover letter to [info@pptxbuilder.com](mailto:info@pptxbuilder.com).
